

Performance Insights

Simplify & Enhance
Performance Conversations
with AI-Powered Workflows

Performance Insights gives leaders dynamic visibility into employee performance in the specific areas your organization prioritizes and generates AI-based summaries **for richer insights and faster reviews.**

Save substantial time for your leaders

Reduce hours spent preparing for reviews and ongoing check-ins

Drive continuous performance management

Monitor what matters to you and your organization year-round

Enhance quality of feedback and coaching

Give leaders more thematic, actionable insights

Powering Better, Faster, and More Continuous Coaching

Capture

Collects performance signals across the Laudio platform and connected systems

Categorize

Suggests categories for each signal based on your organization's performance pillars

Summarize

Uses AI to generate overviews of employee performance within each pillar

Act

Provides content that leaders can easily transfer into their HRIS for use in reviews
